An agent for the many imitations of this cele-
brated article is now by a Druggist in Mon-
treal, for which he has borrowed the name
Extract of Soap—and by the way, perhaps
he has not noticed it as to what Extract of
Soap is. Well this individual
what may, has got the bump of imitation
so largely developed, that he has tried his
and on the majority of popular articles which
have been brought out for the last few years.
This imitator, like the borrower of other people's
brilliance, trading on the reputation of an old
established house, of which by a strange
deception of Providence, he has got the
management, is pulling off his Extract on the
public in place of the genuine. Purchas-
ers will notice that the "genuine" has the
subscriber's address stamped on each tin.
For sale by all the leading Druggists and Grocers
throughout the Dominion.

Fashionable Wedding.
"Will those take this brown stone front,
These carriage, this diamond,
To be the husband of thy choice,
Fast locked in bonds of Hymen?
And with those leave thy home and friends
To be his loving wife,
And help to spend his large income,
So long as life shall live?"
"I will," the modest maid replied,
The loveliest blessing in her eyes.
"And wilt thou take this material,
This ornate price,
With all those ample millions' bills,
To be thy chosen bride?
And wilt thou love and cherish her
Whilst thou hast life and health,
But die as soon as possible,
And leave her all thy wealth?"
"I will," the fearless maid replied,
And eager wait the nuptial tide.
"Then I pronounce you man and wife,
And I join together
The best man and maid domestic
And the first divorce court ever!"

CONCENTRATED LYE.
Amongst the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name of "J. W. Edwards' Kid Glove Cleaner." It can be caught up as to what is the real article. Well, this individual, whose name of J. W. Edwards and Co. is on the label, has got the pump of imitation so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, the borrower of other people's names, trading on the reputation of an old established house, of which, by a strange disposition of Providence, he has got the management, is pointing of his finger on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

I then sat down and thought the thing over.

I made up my mind that the fellow who wrote the treatise was in the kitchen helper.

I fear to the kitchen that what he knew about milking kine, heifers, he had learned by leaning over a barn yard fence, and writing the thing up.

I got up from my reflections strengthened, and went for that beef.

I will draw a veil over the language I used, and the things I did, but I want to tell you that I was not in it.

That beef never became a cow.

This is one way we break a kitchen helper, and after a man has studied all the books in the kitchen on the subject, and tried them on, he will fall back on his plan, and make up his mind, as I did, that a kitchen helper is more for beef than for the kitchen.

I have worked on a farm for long enough to know that there is no prairie so good for poor land as manure, and no theory can beat twelve hours each day, (sunrise excepted) or honest labor the whole day.

I am an old fashioned fellow, and heartily hate most of the things, because I have been to them so often.

I never knew a farm that was worked pretty much by theory, but what was for sale, or for let in a year, and I never knew a farm that was worked by manure, and the good old ignorant way or our ancestors, but what was based down from father to son, and always was noted for raising heavy, strong, and butternut, and that rate potatoes.

What I know about plowing is nothing but experience, and experience (now a days) is not worth a kuss.

I had rather have a good looking theory, than a good looking man, than the experience—even of a kitchen helper.

Experience is a good thing, but lay down and die with it, but you can't do big business with it, it's not hot stuff.

Give me a red hot humbug, and I'll make more out of the experience in this world than you can.

London, Feb. 6.—There is no doubt that the

The Times says that the Treaty of Washington

has become imperative, not being based on

a perfect understanding between the parties

concerned.

I was with the utmost reluctance, says the

reference of the claims to the possibility that

will come to nothing. Our expectation

of a successful issue must be extremely moder-

ate. A satisfactory answer from Washington,

excluding the claims for indirect damages from

the case cannot be anticipated, and there can be

no request but the abandonment of the re-

ference.

The demonstration at Trafalgar Square last

night by the supporters of Sir Charles Dilke,

was attended with comparative quiet. A pro-

cession numbering at least 14,000 persons, many

of whom were persons of good rank, gathered

in the square. Numerous red flags were borne

through the lines, and the bands played the

"Marseillaise." Mr. O'Connell presided over the

meeting.

At a banquet of Liberals held at Lambeth last

night, Hon. Peter John Lubbock, M. P., for

Surrey, presided. Mr. Wm. MacArthur, M. P.,

seconded a speech, in which he referred

to the Alabama claims and said he would

claim of the United States Government for

AFTERNOON DESPATCHES.

The Very Latest.

Despatches to 4 P. M.

London, Feb. 6.—A special despatch to the

Daily Telegraph from Paris, says that President

Favre was not at last night but had his

assassination escaped.

The Times this morning preserved the tone

of moderation it assumed yesterday in treating

the subject of Alabama Claims. It deprecates

intemperate denunciations of the treaty, and

hopes it will lead to a happy settlement.

The present duty of English statesmen is to

do nothing likely to prejudice any

attempt to remove the misunderstanding which

has unhappily arisen.

The Daily Telegraph expresses the claim for

indirect damages as indefensible, inasmuch as

the United States has no right to demand

reparation for the loss of property in the

hands of the United States. It is a claim

which is not based on any principle of

justice. It is a claim which is not based

BELLEVILLE, SATURDAY, FEB. 17.

See first and fourth pages for interesting reading matter.

TO CORRESPONDENTS—"Cricket" communications, crowded out to-day, will appear on Monday.

TRADE OF MONTANA.—The imports for the last year into Manitoba are as follows:—

Total value of goods imported from Jan. 1st to Dec. 31st, 1877. \$1,068,810.00

Total amount of duties collected thereon. \$62,238.00

Total amount of freight paid thereon. \$16,337.00

Total value of goods imported during 1877. \$1,068,810.00

The weight of the above amounted to 9,614 tons.

CEASE WINKING.—The N. Y. Tribune gives an account of a quantity of whiskey seized in New York, Mass. last week, which was compounded upon the following receipt found in the possession of the dealer:

"Ten gallons of kerosene, three pounds of potash, one ounce of saltpetre, mixed with soft water. If you want 'gin,' add plenty of oil of juniper! The mystery is, says the N. Y. Tribune, that men who drink this diabolical fluid do not drop down dead at once."

THE DOMINION SURPLUS.—The Ottawa Times says: "Some misconception appears to have arisen as to the nature of the financial surplus during the past four years. For the benefit of some of our contemporaries who seem to have been led astray, we may mention that, thanks to the aid measure to the prudent and economical policy of the Dominion Government, there was a surplus of \$2,000,000 for the four years ending the 30th of June last. We may also add that there will probably be a surplus of nearly \$3,000,000 more this year."

TOWNSHIP SABBATH SCHOOL CONVENTIONS.—The Township of Tyndasaga Sabbath School Association will hold their second annual Convention in the Wesleyan Methodist Church in Shawville on Monday next, the 19th.

The Township of Tyndasaga Sabbath School Association will hold their second annual Convention on Tuesday, the 20th, in the Methodist Episcopal Church in Shawville. Each of these Conventions will have three sessions—the morning at 10 o'clock, afternoon at 2, and evening at 7. The arrangements for these Conventions are very complete, and a large attendance is expected. It is hoped that many of the friends of Sabbath Schools in Belleville will find it convenient to attend.

Ontario Legislature.

FRIDAY, FEB. 16.

A number of Bills were read a third time, and others were adopted a stage.

The remainder of the session was principally occupied in discussing the report of the Committee on supply. Grants in aid of charities formed the subject of a lengthy debate as to the advisability of such a system, but the opinion of the House was unanimously shown by the division which took place on Mr. Ferguson's resolution disapproving of the action of the Government in putting three additional charitable hospitals in the list. The motion was lost by a vote of 1 to 50.

The rights and wrongs of school teachers were next debated, the School Act being brought in for a considerable series of criticisms Mr. Wood, the new member for South Victoria, argued strongly against the enforced subscription to the superannuation fund, and it was generally agreed to agree in the view that a change in the Act was advisable.

"Are Bitters Intoxicating?"

The question "Are Bitters Intoxicating?" has caused considerable discussion among temperance societies both in this country and across the border. Just now Boston has been the scene of a very interesting and successful life, and that all others have or less directly to ruin."

Assistant Teacher in School No. 8 for two months, at a salary of \$10 per month, on condition that he should permit to be taken from the local inspector.

Mr. Shepard stated that Mr. Irwin had an average attendance of over 60 that it was absolutely necessary, as his health was failing, that his labors should be lightened.

The Chairman stated that the Act was explicit that no teacher should teach over 60 pupils.

The motion was then carried.

After a few minutes' conversation on other matters, the Board adjourned.

Sabbath School Convention.

The annual meeting of the above Association was held on Friday, 16th inst., at the Sunday Town Hall.

The chair was taken by the President, S. T. Wilton, at 9:30 a. m., and the session was opened by singing and a short prayer meeting, led by Mr. R. Bird.

The President then read a communication from A. McClatchie, expressing regret that his duties prevented him from attending the Convention, and tendering his resignation as Secretary of the Association.

On the motion of B. H. Vandervoort, seconded by S. D. Farley, S. A. Gardner was appointed Secretary pro tem.

The President then proceeded to appoint the Business and Nominating Committees.

The first subject introduced to the notice of the Convention was "The Bounties arising from former Sabbath School Conventions." An interesting discussion ensued, in which part was taken by the President, Messrs. R. Bird, G. S. Vandervoort, H. H. Vandervoort, B. W. Case and S. D. Farley, the conclusion being that the Convention held last year had exerted a very beneficial influence on the Sabbath Schools of the Township. This was shown by the marked increase in the attendance and by an increased activity in all connected with the Sabbath School; and all concurring in the statement that the year just past had been the most prosperous one in the Sabbath School that was ever known.

The choir then sang "Battling for the Lord."

Mr. W. Johnson, Belleville, being called upon, urged the necessity of all taking an active part in the discussion, in order to make the Convention interesting and instructive.

After a short speech from Mr. Brenton, of Thurlow, the report of the Business Committee was received and adopted.

The choir then sang "Praise, Praise," and the session was closed by the benediction.

The afternoon session was opened by singing and prayer, led by Miss Brenton, and after the usual routine of business had been transacted, the report of the Nominating Committee was received, and adopted.

The officers for the current year, being President, S. T. Wilton; Vice President, G. S. Vandervoort; and the resident ministers of the Township; Treasurer, B. W. Case; Secretary, S. A. Gardner.

The President, in a very eloquent address, alluded to the prosperous condition of the Convention, and the great benefits arising therefrom.

The choir then sang "Praise, Praise," after which the verbal reports of the Superintendents of Sabbath Schools were received.

The reports of the Superintendents of the Sabbath Schools, a greater interest in the work, more prizes, and a larger distribution of Sabbath School papers, than in any previous year.

An animated discussion arose on the practicability of keeping the Sabbath Schools open during the winter.

The choir then sang "Over there," and the Rev. E. B. Austin introduced the subject, "How shall we secure the active cooperation of the church in the Sabbath School work?" The President, W. J. Blaney, G. S. Vandervoort, W. W. Turner, A. G. Nottrop and others took part in the discussion that followed.

After the choir had sung "Title clear," Mr. Wm. Johnson introduced the subject, "How shall we promote the efficiency of our Sabbath Schools?" Giving many practical hints to Sabbath School Teachers and Superintendents, in his usual eloquent and impressive manner.

A short discussion on the subject, "What shall be considered sufficient reason for closing a Sabbath School during winter?" followed.

The choir sang "Beautiful Land of Rest," and the congregation were dismissed with the benediction.

The subject for the evening session was "The qualifications of Superintendents," led by A. G. Nottrop, Esq., of Belleville, who delivered a very eloquent and instructive address on the duties and qualifications of Teachers and Superintendents.

The choir sang "At home in Heaven," the Rev. J. M. Simpson brought forward the subject, "What is the true meaning of a total abstinence from tobacco and intoxicating drinks into our Sabbath Schools?" A very animated discussion ensued, all agreeing that the pledge should be introduced as soon as possible.

Resolved: That the Board, through the Secretary, make it known to the Teachers of the Sabbath Schools and the public generally, that the system of gradation is one of the chief advantages of the Sabbath Schools, and that the public schools are taught strictly in accordance with the programme of the Council of Public Instruction for the cold weather, and that any teacher who is not, whether in the difference and the reason for the same.

That the request of Mr. Irwin, Head Master of No. 3, for an assistant, be granted.

Resolved: That the Board of Commissioners, W. A. Gardner, Chairman.

the proceedings, and all Sabbath School workers, no doubt returned home strengthened in their faith, and more ready to better strive to discharge their onerous duties.

AT HOME.

The beautiful weather today was a great incentive to business-men who were away.

An additional assistant has been appointed for School No. 8 for a couple of months.

The annual meeting of the Association with Dr. Thomas' will be held in the church on Monday evening.

A gang of youths had a man of straw to amuse themselves with on Front Street last night. The figure was artfully stuffed and was supplied with a wig on its head and a pipe in its mouth.

The Town Council holds a regular meeting in the Town Hall on Monday evening.

Some horse characters are said to frequent the wood shed at School No. 4 every night. A word will be said on this to this evening by closing up that place.

The contractor for the extension of the Union School is making arrangements to proceed vigorously with his work so soon as the weather permits.

The bridge is now closed to traffic, and will remain so until the eastern gale is rebuilt. Foot passengers are not deterred from crossing.

The undergraduates of Albert College held their annual exhibition of their work at the first part thereof—in Ontario Hall last night.

The attendance was large, and the young men displayed a creditable accuracy in the results of their studies.

Arguments and disquisitions. The great event of the evening was the historical discussion—"England owes her greatness more to error in her history prior to the accession of Elizabeth than to events subsequent to that date." The affirmative was ably sustained by Messrs. E. G. Foster, H. Barton, and E. L. Chisholm.

The negative was ably sustained by Messrs. F. Macdonald, T. Graham, and J. B. Harvey. The question was put to the meeting by the moderator, Mr. Eugene McNeil, and decided in favor of the affirmative.

Some excellent music was furnished, in which Miss Sisk and the Messrs. Crozier sustained the leading parts, under the direction of Dr. Crozier.

The second part of the exhibition will take place on the same hall on Friday evening, March 16th, when there will be a competition for a prize to the student of the P. M. Society, for which eight candidates have already announced their intention to compete.

Dr. Palmer, the worthy Principal of the school for the deaf and dumb, having obtained leave of absence for three weeks, is about to make a short visit to his friends in North Carolina, where he has had some business for some months past. Both in his efficient management of the institution of which he is the head, and in his private capacity, he has won the esteem and respect of all with whom he has come in contact. We cordially wish Dr. a safe journey, a pleasant sojourn among his Southern friends, and a happy return.

His health and vigor renewed, he will be able to resume his duties with renewed energy.

as to the cause of the frequent storms in the Caribbean Sea shelled some discussion. The next meeting will take place in the Marble Hall on Thursday, 22nd inst., when the Society will give a public night, and invite the friends of the cause to be present.

Some elderly disposed persons have lately been spreading a report that a case of small-pox exists in the Duke House. We have the authority of Mr. Borden for utterly denying the truth of such a statement. There is not now, nor has there been any foundation for such a rumor.

It is prophesied that this will be a good year for maple sugar. Already farmers are cleaning up their buckets, and getting aples and kettles ready.

An exchange gives a good receipt for a first-class headcase. Sleep in a room where a horse is turned down low, so as to give but a faint light. This receipt does not fall once out of time.

To get some friend who is not happy with his attitude to read this on the 11th.

"The one of the under is said on the 11th."

And then this:

"A man who is unable might get for one."

Then tell him to go away. That's all.

In the House of Commons this evening, the Right Honorable Edward P. Bourke asked Gladstone if the letter addressed to the correspondent of the World was genuine, when Gladstone replied, "Yes, it is a reply to a letter asking explanations in regard to my speech."

LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERALITY IN THINGS NOT ESSENTIAL—CHARITY IN ALL

No. 252

Our Paris Letter.
(From our own Correspondent.)
Paris, February 2

The country is getting weary both of free-trade and protection debates, perhaps naturally so, as they have continued longer than "three days." The Assembly took like Penelope; the progress made in free-trade to-day is undone by protection to-morrow. The new law on the merchandise marine is considered by reflective minds as detrimental to France; it remains for the future now to decide. The fate of

principles of commercial treaties appear to be compromised; the treaty with England on which the discussion turns, is the type over which the battle is being delivered. The Government desires to denounce it—regain its tariff liberty—and negotiate afterwards. The contrary is what the free traders wish. The sentiment of the nation leans for freedom of commerce with strictness, a path that nearly all people and Governments in Europe at present incline to adopt, for there is hardly an

ception to one nation executing trade leas-
with another. The practice would ap-
be even a necessity of the times, what
everything is so uncertain, such a plan
comes a guarantee, a kind of assurance
those industries that work with the v
of exportation, that they shall have fo
fixed period a certainty for their tra
actions being undisturbed. France cou
upon the benevolence of other count
overlooking the probabilities that circ
stance may arise—a war for exampl

where those nations may be forced to
foreign products. Optimism has ever
a grand illustration with the French.
the late war, they calculated upon South
Germany, till "Our Fritz," dissipated
delusion at Worth; then Austria
Rumia became in turn chimeras; Eng-
and the United States being voted un-
ful, after France saved the army of the
in the Crimea—the war being under-
sely in the interests of John Bull—
won independence for the second.

M. Remusat, minister of Foreign Affairs, is 70 years of age, of rather stature, a mild expression of features, his jaws are puffy and falling; his chin is the corners of his mouth being marked by deep wrinkles; eyes, staring, betraying a mixture of weakness and mildness; a gray hairs cover his head, and his wrinkles, very close, look as if they were timidly like to extend to the chin. He is not eloquent, but speaks clearly and with care; he is a talented man, capable to lay expose his views, and is listened to with respect, and is sometimes applauded. He emphasises his articulation, making

unleashed, he finds his words with
colty, and labors under emotion. In
tribunal he makes you feel he is there
the first time, and is "unaccustomed
public speaking." He is a strong par
of parliamentary government, bowing
his chest to the majority - but only
agreeing with him. His recent speech
the commercial treaties discussion, con
ed of hope. He hoped that all would
well; that England would accept wi
gracious smile the denunciation of

The appearance of Gambetta in tribune was an event—a jack-in-the-apparition, because his silence led to belief he had abandoned oratorical. He sensibly proposed to negotiate by disavowal. Even had he reasons against such blackberries, he would not

present as disinterested as possible, and to avoid any cause he espoused. The Monarchist hated him, if anything more so than he himself. His cardinal crime consisted in their not so much in continuing the war against Prussia when the game was lost, as in presuming to wage it in the name of a republic. Were he to propose Henry's execution to-morrow, the royalists would be dead against the motion. The few English words he employed were most laughably pronounced, and heightened in effect by his strong Southern *patois*.

This was the President's first appearance in the tribune, since he frightened them from its propriety, by his resignation, and the Assembly stood face to face with two reconciled men after fighting a duel. But his interference in the debate was unhappy as Gambetta's with the addition being quite unnecessary. It was an omen for the Finance Minister, but not

the President of the Republic. He said the world has no doubt of M. Thiers' platonic love for protection. His speech had some rare merits; there was no misinterpretation of treaties; no jugglery with facts and figures; the speaker's temper, and did not threaten to reveal strange, when he descended from the tribune, after being so good, his friends not 'surround and congratulate him' as did when he played the bull in the other shop.

If the Duc d' Aumale does not enter tribune, the country will commence believe that after all a prince resembles very much common mortals. An extraordinary residence of twenty years in England ought to enable that deputy to say something on the subject of free-trade and the opinion of England on commercial relations with France. His speech would be as interesting to the nation, as the 'History of the House of Conde.' No one expects anything from the Prince de Joinville.

The Peterborough By-Law.

It is quite evident the Peterborough delegation who visited Toronto, a few days ago, for the purpose of inducing the Legislature to repeal the bill annulling the Peterborough By-Law siding the Grand Junction Railway, have not a very excited idea of our legislators. The Committee on the subject was called on by the delegation, and the Committee consists of a large number of "rings" banded together to secure as much as possible the passage of the bill. Messrs. Graham, O'Brien, Laidlaw, Jones, Ferguson, E. B. Wood, Gibson, C. Wood, Carling and several others are evidently in league in railway matters, and pay little regard to the justice of any private bill. "The Belleville people were in Toronto in force against the bill, and succeeded now as they did before in getting it legislated, by lobbying, and through the influence of other members who want railway legislation." Mr. Mr. Jones is, we know not. Why did not the Belleville tell its members that the bill was the proposition of the Peterborough people, that none of them could induce the leader of the Government to take any part in it, that a large majority of the members composing the Railway Committee are in support of the Government. The fact is the present Wardens of the County of Peterborough led the Council to believe that it was all powerful in Toronto, and having obtained a vote to Toronto, had to have an excuse for his failure, hence the Railway Committee is denounced as a "Ring."

Around Town.

Borne has taken himself to some less favored clime, and he has left very much to the Young Men's Christian Association, which you go to "Across the Country" with Rev. Hugh Johnston on Tuesday night.

Strange but true—those born on the 29th February have only one birthday anniversary every four years.

The Belleville branch of the Upper Canada Bible Society held its meeting in Ontario Hall on the evening of Thursday 29th inst. Rev. J. G. Manly, of Toronto, Agent of the Society, presided, and Mr. Manly delivered address. Chair to be taken at 7 o'clock.

Now that the season for horse hunting and letting is approaching, we invite attention to the advantages afforded by the INTELLIGENCER as an advertising medium.

Talk about building operations beginning early in the season! A stone foundation is now being built in rear of the INTELLIGENCER office for a new building which Mr. Condon is about putting up. Belleville is still ahead.

With great haste and view to the fact of the 29th, when proposals may come in from the former portion of creation; and those who can make preparations and packing their trunks, so as to be able to fly away to the wilderness a few days before hand.

Mr. Ranney has been pushing on operations on the rebuilding of the eastern span of the lower bridge, which is now finished.

The rebuilding of the lower bridge at night was highly successful. The church was crowded, the vicar was plentiful and food, and a pleasant evening's entertainment was made up of readings, music, etc.

A nation of great variety caused and fed to a horse every day at this season of the year will be found very beneficial in removing the old hair and giving his coat a glossy appearance. The hair grows more quickly, and they will improve faster on it than on any other kind of feed, if he is not overworked. Care should be taken for the first two or three days to give the horse in small feeds.

Mr. Ackerly is in the process of rebuilding of his house destroyed by fire a short time ago.

"XXX" has forgotten to comply with the rules of fair printing office, in not sending his name to the printer.

The Gas Company has been burning a considerable amount of coke on the roadway, corner of Front and Bridge Streets, for two days past, to thaw the ground sufficiently for the passage of the cars.

A grand concert, under the auspices of the Ontario Ladies' Association is to be held in the Masonic Music Hall on the 11th and 12th March. Addresses will be delivered by the following gentlemen: X. A. Willard, M. A. of Little Falls, N. Y.; Prof. Arnold of Ithaca, N. Y.; Dr. Clark of Oshawa and Professor Bell of Albert College, Hon. A. McMillan, Minister of Education, is also expected. A number of tickets of interest to ladies will also be discussed. There is no reason why this Convention should not prove a great success.

Readings in the rooms of the Y. M. C. A. on Thursday night, March 7th.

The meeting of the Ladies' Mutual Improvement Society, on Thursday evening, 29th inst., having been announced as open to the public, with free admission, attracted a large company, chiefly of ladies, who had every opportunity afforded them of observing the working of the institution, the usual routine of procedure having been observed with slight variations. Original essays were read on various subjects, by lady members were read; readings by Professors Bell and Dawson, and (dialogue) by Messrs. Thomas and Ferguson, were given; questions were proposed and explanations offered, and music both vocal and instrumental, formed a pleasing feature of the programme. A most excellent presentation, consisting of a wreath in appropriate colors, was presented to the "Queen of the Evening" by the ladies. The more we know the more we know, executed by Miss Ackerly, was placed in front of the chair and elicited some glowing and practical remarks from the President, Mr. Macdonald. The meeting was a very pleasant one, and the visitors expressed a desire to join the Society.

We are requested to state that the Rev. A. Baldwin will (D. T.) preach in Christ Church on Sunday evening on "Confession" and that the Rev. Mr. Ouellet's sermon on "Confession" is postponed until Sunday evening, March 9th.

Literary vendors of the "Cheap Jack" offered the town this morning. A balloon ascension was particularly noteworthy. Readings were given by Mr. James Morrison was chairman, and Mr. H. Dugan the reader of the evening.

Bushes and sleepy sidewalks, beauty and snow, were the features of Front Street today.

The Nine Hour Movement.

The workmen of Hamilton are pushing their theory to an extreme length, the principle being that a man shall only conduct his business in such a way as to place them in his employment. The Hamilton organ of the movement, which is the "Banner" says: "We may say that we do not consider it to be the proper or legitimate work of a newspaper editor to say 'no' to a man who is a feeling of discontent and create unrest in a community where the best of good feeling and amity has been created between employers and 'employees.' It would be well for other newspaper editors to follow this example. Messrs. Wilson, Bowman & Co. of Hamilton, have published a letter containing some statements that have been made against them, which coincide with the following truthful remarks:

"We regret exceedingly that things should have come to this pass, but the shoulders of lay and unprincipled agitator, who were never before in the ranks of labor, of stirring politics of the 'rule or ruin' stripe, of covetous and grasping ambition, and of the desire to get the credit of newspaper scribbles, have insured the responsibility of having inaugurated what may become an era of lawlessness in many, until now, happy and contented families."

Ontario Legislature.

FRIDAY, FEB. 28.

The House discussed the difficulty which had occurred in respect to the Proton etor, coming at last to the conclusion that the bill should be dropped.

The debate on the resolutions with respect to the proposed increase of the railway fund was next resumed, and with the exception of an hour devoted to private bills after the recess, occupied the remainder of the evening. A number of amendments were moved, some of which met with considerable support on both sides of the House, especially the one proposed by Mr. Rykert with the view of striking out the portions of the resolution having reference to the proposed creation of a subsidy fund, which was voted for by 34 members.

At one o'clock the resolutions were again taken up, and the House was ordered to be reported this (Saturday) afternoon.

In the course of the debate, Dr. Boulter spoke in opposition to the amendment.

Mr. Corby also spoke against Mr. Rykert's amendment.

The Infallibility Dogma.

IMPORTANT MOVE AMONG THE FAIRIES CLUB.

The Paris correspondent of the London Daily News forwards, under date of the 5th, the following communication to the effect:

The radical movement in the French Republic of Paris, recently depicted in the Parisian press, has produced a serious alarm among the Parisian clergy. M. Michel, the Vicar of the Madeleine, is an honorary canon of the Cathedral, and a letter to him, dated this day, resigns all his ecclesiastical preferments. The reason he gives for this step is that the Archbishop requires the clergy not to support the radical movement, and the Pope's infallibility, but to believe it sincerely in their hearts. M. Michel declares open war against the Archbishop, and freely defies the ecclesiastical authority which he would be bound to obey. He declares that he will do nothing for the scandal which he knows his protest will cause. He will remain a priest and a Catholic, but a Catholic believing with regard to Jesus Christ, what has been everywhere, always and by everybody believed, and not in a belief decreed by a man in Rome just as fallible as he is.

He goes on to say that he has no account, but for a party in the Church, and announces that to-morrow a committee will assemble at his house, 74 Boulevard Neully, for the purpose of discussing the proposed union of the French Republic, Italian and Spanish committees, and that as soon as sufficient funds are collected churches will be opened independent of the Ultramarine.

It would be well for other newspaper editors to follow this example. Messrs. Wilson, Bowman & Co. of Hamilton, have published a letter containing some statements that have been made against them, which coincide with the following truthful remarks:

"We regret exceedingly that things should have come to this pass, but the shoulders of lay and unprincipled agitator, who were never before in the ranks of labor, of stirring politics of the 'rule or ruin' stripe, of covetous and grasping ambition, and of the desire to get the credit of newspaper scribbles, have insured the responsibility of having inaugurated what may become an era of lawlessness in many, until now, happy and contented families."

General Diaz's Death.

San Francisco, Feb. 26.—The steamer

Montevideo arrived at this port today from

Guaymas and

Luzon.

Despatches from Guaymas report the capture

of Mazatlan by the Federal troops, but this

is believed to be incorrect.

The Mazatlan did not touch at Mazatlan,

but was detained at the port of Guaymas.

It was destroyed by the portion of its force

comprising the late revolutionaries of Mazatlan.
